ICT CODE OF CONDUCT
for 3-6 Students

Pelican Flat Public School embraces the use of ICT in the belief that it enables everyone to learn in a multitude of different and powerful ways.

The purpose of this document is to clarify what is considered acceptable and unacceptable use of ICT (including the Internet, IWBs, laptops, iPads and other devices), and to provide clear guidelines for the use of ICT resources to promote a safe learning environment and to further equip our school community with the knowledge and skills to become responsible digital citizens.

Any violations of these guidelines will immediately result in disciplinary action, including and not limited to losing account privileges and technology access, and in extreme cases suspension.

◆ I will only use technology to help me learn and as instructed by my teacher.
◆ I will only access appropriate sites and information that is relevant to my work when using the internet, and report any inappropriate material to my teacher.
◆ I will not delete software or files that do not belong to me.
◆ I will not change any settings on computers or iPads.
◆ I will only use my own login and password and keep them private.
◆ I will be respectful and appropriate when communicating online (e.g. blogs & email) and report any cyberbullying to my teacher.
◆ I will only use my first name and not give out any personal information when communicating over the internet.
◆ I will handle technology equipment with care and immediately report any problems to the teacher.

I understand that the use of computer technology at school is a privilege, not a right. I agree to follow the above rules and am aware that breaking them will result in loss of my privilege to use technology at school.
